

# Cuff pressure management

This bibliography is a literature reference for users and represents selected relevant publications, without any claim to completeness.

## Table of Contents

1	Continuous Endotracheal Tube Cuff Pressure Control Decreases Incidence of Ventilator-Associated Pneumonia in Patients with Traumatic Brain Injury .....	3
2	Evaluation of an automated endotracheal tube cuff controller during simulated mechanical ventilation .....	4
3	Continuous endotracheal tube cuff pressure control system protects against ventilator-associated pneumonia .....	5
4	Evaluation of an intervention to maintain endotracheal tube cuff pressure within therapeutic range.....	6
5	A cross-over study of continuous tracheal cuff pressure monitoring in critically-ill children .....	7
6	Prevalence and predictors of out-of-range cuff pressure of endotracheal and tracheostomy tubes: a prospective cohort study in mechanically ventilated patients .....	7
7	Continuous control of tracheal cuff pressure and microaspiration of gastric contents in critically ill patients .....	8
8	Assessment of endotracheal cuff pressure by continuous monitoring: a pilot study .....	8
9	Automatic control of tracheal tube cuff pressure in ventilated patients in semirecumbent position: a randomized trial .....	9
10	Pneumonia in intubated patients: role of respiratory airway care.....	10
11	Cuff pressure of endotracheal tubes after changes in body position in critically ill patients treated with mechanical ventilation .....	10
12	Efficiency of a pneumatic device in controlling cuff pressure of polyurethane-cuffed tracheal tubes: a randomized controlled study .....	11
13	Tracheal pressure and endotracheal tube obstruction can be detected by continuous cuff pressure monitoring: in vitro pilot study .....	12
14	Rapid pressure compensation by automated cuff pressure controllers worsens sealing in tracheal tubes .....	13
15	Continuous control of endotracheal cuff pressure and tracheal wall damage: a randomized controlled animal study .....	14
16	Changes in endotracheal tube cuff pressure in mechanically ventilated adult patients .....	14
17	Control of tracheal cuff pressure: a pilot study using a pneumatic device.....	15
18	Automatic regulation of the cuff pressure in endotracheally intubated patients .....	15
	Additional files.....	16
19	Is continuous better than intermittent control of tracheal cuff pressure? A meta-analysis .....	16
20	Optimal care and design of the tracheal cuff in the critically ill patient .....	16
